Dear George:

We have noted your Field Reassignment Questionnaire, including your request for an opportunity to complete your doctoral program this coming winter.

I am unable to give you a firm assurance, but we have examined a number of alternative possibilities and we are reasonably sure that something can be done to provide at least adequate financial support while you are preparing your thesis on  Finance.

By the time you return to Washington, we hope to have a firm proposal to make, which we will discuss with you at that time.

Sincerely yours,
